USER GUIDE · VERSION 5.0

Help every child **learn, grow** **and shine**

Start with Paddi Dash, one free dashboard for everything your child learns. Then switch on only what they need. Every PromptPaddi Junior product: what it does, what it costs, and how to use it, step by step.

Paddi Dash, free for every family
Progress, gaps and homework in one place.

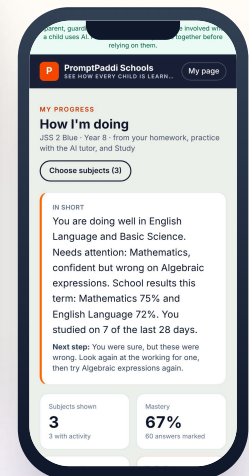

For schools and teachers
Homework Tracker, Learning GPS and the AI governance course and suite.

For families
The Tutor, Exam Boost, Paddi Radar, Maths Clinic, English Lab, Science Lab and more.

For family far away
Give it as a gift, in naira, pounds or dollars.

How to read this guide

Each product has the same five parts: **what it is**, **why you'll love it**, **how to use it** (numbered steps: do them in order), pictures of the real screens, and **what it costs**.

Running a school?

Start with [Part 1](#). For every click, there is a separate **Schools Guide** for Homework Tracker and Learning GPS: [download it here](#).

A parent?

Start with [Paddi Dash](#): it is free, and every product you choose switches on its part of it. The **Paddi Dash Guide** shows it all with the real screens: [download it here](#).

"Everything is paid once, for the time you choose. Nothing renews by itself."

THE PRODUCTS

PromptPaddi Junior on one page

Pick what your school, your class or your child needs. Tap any product to read more on the website.

promptpaddijunior.com

Paddi Dash · free, for every family and teacher

One dashboard for everything a child learns: progress, gaps, homework and stars. Each product below switches on its part of it.

Homework Tracker · schools and teachers

Set homework in minutes, marked the moment pupils answer, with results, a mark book and reports.

Learning GPS · schools

Each pupil's two-minute Daily Pulse, and every form teacher's Monday list of who needs them.

Study Coach · every learner

The curriculum prompt library, study guides, practice tests and the AI Literacy Course.

PromptPaddi Tutor · families

Paddi teaches each topic first, then practises it step by step: hints first, never the answer first.

Exam Boost · families

Timed papers like the real Common Entrance, BECE, WAEC, NECO, JAMB or IGCSE, for the subjects you choose.

Maths Clinic and English Lab

A free gap check finds where it goes wrong, then every gap is fixed skill by skill.

Science Lab · families and schools

Over 100 science practicals on screen, every reading checked. No laboratory needed.

Leading on AI · schools

The AI Governance Course for Educators, then the AI Governance Suite of policies.

My Learning GPS at home · families

Two minutes a day: your child notices how they learn, and you see their week.

Paddi Radar · families and schools

Photograph a report or homework: Paddi explains it, and shows progress over time. First scan free.

Give it as a gift · anyone

Pay for a child anywhere, in naira, pounds or dollars. We send everything to their family.

The home page is Paddi Dash. Tap **Get my free dash**, or **Try the sample** first. Running a school? Tap **See what we do for schools**.

START HERE · FREE

Paddi Dash, your free dashboard

One free dashboard for everything your child learns. It is like the cockpit of a plane: every part shows how your child is flying, and lights up when something needs you.

Scan: get your free dash

What it is: a free dashboard for each child, with no card. Every product your child uses feeds it. Each product you add switches on its part of the dash, and every part has a free sample to try first.

1 Get it free

On promptpaddijunior.com, tap **Get my free dash**, give your email, and we send you a link to set your password. Two minutes.

2 Add your children

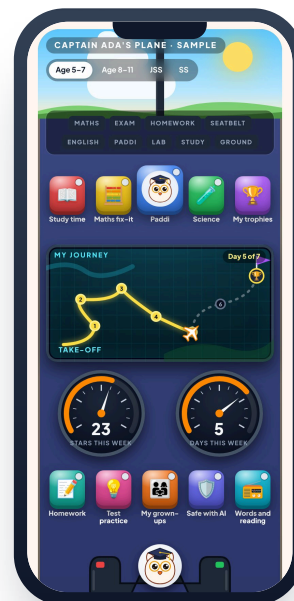

A dash for each child. Children never give us an email or a password: each gets a private link that works on two devices.

3 Try every part, then switch on what they need

Tap a part to see what it does and try its free sample. Buy only what your child needs; nothing renews by itself.

4 Put it on the home screen

On your child's phone or tablet, open their link and choose **Add to Home Screen** (iPhone or iPad: the Share button, then Add to Home Screen). It opens like an app, with their name on it.

A younger child's dash.

An SS student's.

It grows with your child

A five-year-old gets bright colours and simple words; an SS student gets the numbers. Teachers can have a free dash for their own class too.

The parts of the dash

Co-pilot	PromptPaddi Tutor	Engine check	Maths Clinic
Throttle	Exam Boost	Radio	English Lab
Ground control	Learning GPS	Landing lights	Science Lab
Flight manual	Study Coach	Pre-flight checklist	Homework Tracker
Seatbelt	AI Literacy Course		

What your child sees

Stars and a target
Stars for their learning this week, against a weekly target, and a trophy cabinet of every star.

Warning lights
Such as "2 gaps to fix", when something needs doing.

Days learnt
The fuel gauge: the days they learnt this week.

Today's first step
One tap to start, such as the free gap check.

How I'm doing

Your child sees the same learning you do, in their own words: which subjects are secure and which need help, and the next thing to try.

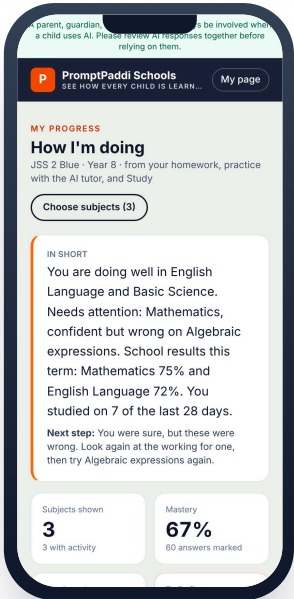

The Paddi Dash Guide

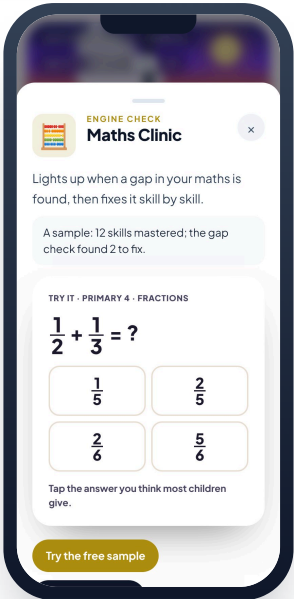

Every part of the dash and every price, with the real screens, in one short guide. [Download it.](#)

PROGRESS DASHBOARD

Tobi's learning

Junior Secondary (JSS 1 to 3) · from Tobi's homework, practice with the AI tutor, and Study

Choose subjects (3)

SUMMARY

Tobi is doing well in English Language and Basic Science. Needs attention: Mathematics, confident but wrong on Algebraic expressions. School results this term: Mathematics 75% and English Language 72%. Tobi studied on 7 of the last 28 days.

Next step: Ask Tobi to show you how they worked one out: where they get stuck is the misunderstanding. Then practise Algebraic expressions together, or with the Tutor.

A summary in plain words

What is going well, what needs attention, and a next step for you.

Mastery and the trend

How much they have right, and the last four weeks against the four before.

To fix first

Answers given confidently but wrong: the misunderstandings that matter most.

Areas for attention

Areas for attention
From Tobi's marked answers, school results and study. Most important first; mark each one when you've acted on it.

1 Fix first

Mathematics

Confident but wrong on Algebraic expressions
4 of 10 answers in Mathematics given confidently and wrong: a misunderstanding, not a gap.
Suggested next step: Ask Tobi to show you how they worked one out: where they get stuck is the misunderstanding. Then practise Algebraic expressions together, or with the Tutor.

Mark as done

1 Fix first

Mathematics

Confident but wrong on Fractions
9 of 40 answers in Mathematics given confidently and wrong: a misunderstanding, not a gap.
Suggested next step: Ask Tobi to show you how they worked one out: where they get stuck is the misunderstanding. Then practise Fractions together, or with the Tutor.

Mark as done

1 Act this week

Mathematics

Mathematics has dropped 18 points
Mastery over the last four weeks against the four weeks before.
Suggested next step: Ask Tobi how Mathematics is going, and whether something new has started in class.

Each weakness with a suggested next step, and **Mark as done** when you have acted on it.

You decide what happens next

Choose the subjects shown, switch on Maths Clinic or English Lab to fix a gap skill by skill, practise with the Tutor, or **Make a progress report**. When your child's school uses PromptPaddi Junior, its results and the form teacher's messages are here too.

GETTING STARTED

→ Buying in three steps

You don't need an account first: we make it for you when you pay, and you set your password straight after.

Every price: /pricing

1 Choose

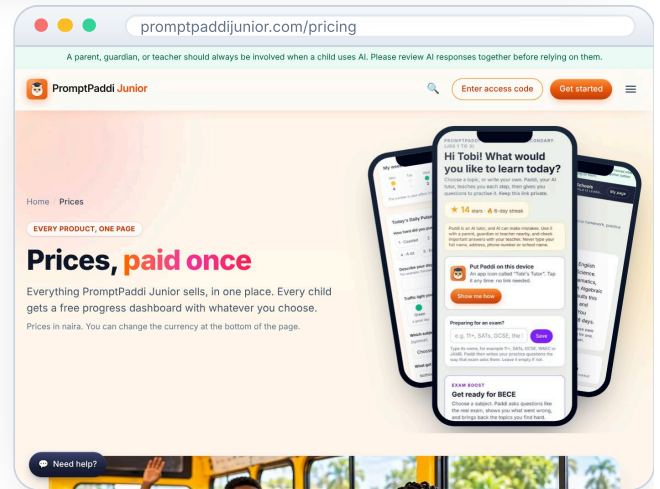

Go to [Prices](#), or tap a product in the menu, and pick what you need.

2 Tell us who it's for

Your children's first names, or your classes and how many pupils are in each, and your email.

3 Pay once

In naira: card, bank app or USSD with Paystack, or a bank transfer. Abroad: pounds or dollars, by card with Stripe. When the payment is confirmed it switches on, and we email you a link to set your password.

The Prices page: every product, in one place.

Schools and teachers

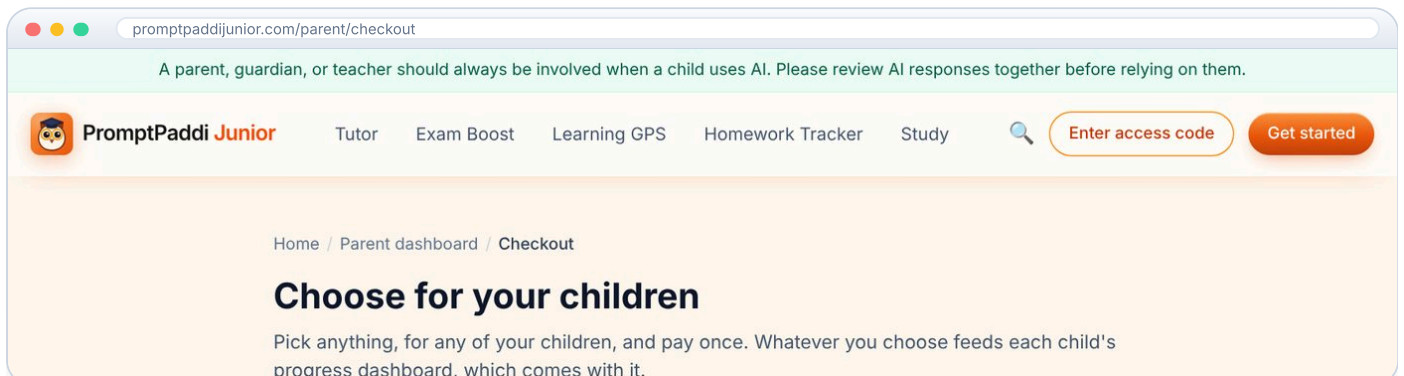

Buy Homework Tracker, with or without Learning GPS, at promptpaddijunior.com/schools. A term at a time.

Families

Buy any mix for your children in one checkout, from promptpaddijunior.com/get-started or your parent dashboard.

Try before you buy

Paddi Dash is free, with a sample of every part: the Maths and English gap checks, a science practical, a free exam paper, and three prompts in every subject. The demo code **PPJ-DEMO-0001** opens a preview of the AI Literacy Course for seven days on a device.

The one checkout for families: choose for each child, and pay once.

1 Homework Tracker

Homework you set in minutes and that is marked at once, with results, progress reports and every pupil's progress dashboard.

Scan: /schools

What it is: a teacher sets homework from their class page; each pupil answers on any phone, from their own private link; short answers and multiple choice are marked the moment they answer, and written answers wait for the teacher. A teacher, tutor or parent buys it for their class, or a school for its classes.

Why teachers love it

No more marking piles

Short answers and multiple choice are marked the moment a pupil answers.

Know who really understands

Each answer is paired with whether the pupil was sure: "confident but wrong" shows what to reteach first.

Draft questions in seconds

With your own free AI: copy our ready-made prompt, paste the questions back, check them and set them.

Written answers, your way

They wait for you under

To mark

; your comment goes back to the pupil.

A mark book and reports

WAEC grades and printable progress reports with your school's logo.

Homework help

Pupils get help prompts for every topic in your scheme of work.

What it costs

£3,000 per pupil, a term

£10 / \$15 abroad. At least 10 pupil places. With Learning GPS in the same order, **£4,000** a pupil for both. A parent can buy it for their child's private tutor.

You stay in charge of marking

Short answers and multiple choice are marked against *your* answers. Written answers are marked by you or, if your school adds Paddi, by Paddi, and you can change any mark. The free AI helper is only for teachers writing questions.

Buying it

- 1 Open the buy box**
At promptpaddijunior.com/schools, tap **Get Homework Tracker**.
- 2 Who, and your classes**
Tap **A school** (or **A teacher, tutor or parent**), then type each class and how many pupils.
- 3 Learning GPS, your details, pay**
Tick **Yes, add Learning GPS** if you want it, type your details and pay. We email you a link to set your password.

The screenshot shows the 'Who is buying?' section with two options: 'A teacher, tutor or parent' and 'A school'. The 'A school' option is selected. Below this is the 'Your classes' section, which lists two classes: 'JSS 1A' with 32 students and 'JSS 1B' with 30 students. A total of 62 students is shown at the bottom.

The buy box: who is buying, and your classes.

Setting up your school (once a term)

- 1 Add your pupils**
Sign in at promptpaddijunior.com/school/login. Under **Learner roster**, add each pupil with their class, and tap **Add learner**.
- 2 Give each teacher their class link**
Under **Class links for your teachers**, type the teacher's name and tap **Make the class link**, then **Copy the class link** and send it to them only.
- 3 Print the pupils' link slips**
Tap **Print pupils' link slips**. Each slip has the pupil's private link and a QR code: no app, no password.

The screenshot shows the 'Homework Tracker' section with a form to add a new class link. Below this is the 'Pupils' link slips' section, which displays a list of pupils' link slips. Each slip includes a QR code, a unique link, and a 'New link' button.

Class links for teachers, and pupils' link slips.

Setting homework

- 1 Start a homework**
 Open your class page (your class link) and tap **+ Set homework**. Fill in the title, subject and topic.
- 2 Write the questions, one a line**
 question | answer; multiple choice question | option | *right | option; written question | teacher marks. Want help? Open **Draft homework questions with your own AI (free)** and tap **Copy & open Gemini**.
- 3 Check, and set it**
 Check every question and answer, tick **Spelling counts** if spelling is being tested, and tap **Set it for the class**.

+ Set homework

Draft homework questions with your own AI (free)

Questions: one a line, the question, then | and the answer. Add more accepted answers with another |, and a hint for pupils with | hint: (used when the AI tutor is off).

Multiple choice: list the options with | and put * before the right one. You mark it: add | teacher marks (and, if you like, your own marking guide after it) for answers in pupils' own words.

What is $\frac{1}{2} + \frac{1}{4}$? | $\frac{3}{4}$ | hint: make the bottoms the same
 Which is bigger? | $\frac{2}{3}$ | $\frac{3}{4}$ | $\frac{1}{2}$
 Explain how you add $\frac{2}{5}$ and $\frac{1}{3}$. | Teacher marks | common denominator 15

Short answers and multiple choice are marked at once. Marking ignores capitals, spaces and "+ =", accepts 0.5, .5 and 1/2 alike (fractions in their simplest form), and accepts two answers ("3, -4" in either order. A small spelling slip in a word answer is marked right, and the pupil is shown the spelling, unless spelling counts. Answers you mark wait for you under "To mark". Up to 20 questions.

☐ **Spelling counts:** a misspelt answer is wrong. Ticked for English and other language subjects; tick it for any homework where spelling is being tested.

Set by:
 Mrs Okafor

Set it for the class **Cancel**

Short answers and multiple choice are marked at once; answers in pupils' own words wait for you under To mark. Every mark is paired with whether the pupil was sure. Confident but wrong is a misunderstanding: reach it first.

Where pupils find it: on their own Learning GPS page (the private link or QR code on their [link slip](#)), under **My homework**, with a **Homework to do** button at the top of the page. No login or app is needed.

Secure: Knows it. Move on. **Right but unsure:** One more go to lock it in. **Confident but wrong:** A misunderstanding. Fix this first.

Still learning: A gap. Practice closes it.

Algebraic expressions homework	Mathematics: Algebraic expressions · due 17 Oct	0 of 8 finished	Close it
Fractions: explain it	Mathematics: Fractions	2 of 8 finished	Close it

▼ To mark: 2 written answers

Setting homework, with the free AI helper.

How pupils do homework

- 1 Open their page**
 They scan the QR code on their slip, and tap **Homework to do**.
- 2 Answer, and say how sure**
 Type the answer, choose **I'm sure** or **Not sure**, and tap **Check answer**. It's marked at once: **Secure**, **Right but unsure**, **Confident but wrong** or **Still learning**.
- 3 Stuck on a topic?**
Homework help: teach me, practise, quiz me gives them prompts for their own free AI.

 ONE QUESTION AT A TIME **My Learning GPS**

HOMEWORK FROM CLASS · DUE SATURDAY
Algebraic expressions homework
 Mathematics: Algebraic expressions · JSS 2 Blue

Every answer you give feeds your **Learning GPS**: your teacher sees it, so they know what to go over with you.

Paddi is an AI tutor, and AI can make mistakes. Use it with a parent, guardian or teacher nearby, and check important answers with your teacher.

1 2 3 4 5
 QUESTION 1 OF 5

Simplify $3x + 2x$.

Your answer
 e.g. 2, 3 or $x = 1/2$

Separate two answers with a comma. Fractions like 1/2 are fine.

How sure are you?

1 2 3 4 5
 QUESTION 1 OF 5

Simplify $3x + 2x$.

Your answer: 5x **Secure**
 Right, and you were sure. Move on.

Next question

Tutor AI tutor: offline, using built-in hints
 Teaches step by step. Won't give the answer before you try.

Want the working for question 1? Ask the tutor.

Give me a hint

Questions to the tutor open when the AI tutor is switched on.

PromptPaddi Schools · Learning GPS © Dr Tim Hyacinth / AI PISAGE. All rights reserved. Your form teacher sees your answers to help you; nobody else in your class does.

What you see

Your class page shows each homework’s results question by question, **To mark** for written answers (tap ✓ **Right** or ✕ **Not yet right**, with a comment), and **Who needs you**.

Results is the class mark book (CA, exam, total and grade, in your grade scale). **Progress reports** drafts a report for every pupil: approve it, then send the parent copy on WhatsApp or print it.

Every click, step by step

The **Schools Guide** takes you through Homework Tracker and Learning GPS in detail, with a first-week checklist. [Download the Schools Guide](#).

2 Learning GPS for schools

Know how every pupil is learning and feeling, and who needs a teacher, every week. Dr Timi Hyacinth's ASEF Learning GPS.

Scan: /learning-gps

What it is: pupils spend two minutes at the end of each day on a **Daily Pulse**, reflect on Fridays, and plan each topic or test with a **GPS Check**. Each form teacher gets a **Monday list** of who needs them, and your safeguarding lead hears at once when a pupil asks to talk.

Why schools choose it

Nobody slips through

Spot struggling, unhappy or quiet pupils before it shows in their results.

Urgent ones first

Each form teacher's Monday list puts the pupils who need them most at the top.

Built for safeguarding

Designed with the ASEF framework. Only the form teacher sees what pupils write.

A term at a time

In the same order as Homework Tracker each term, or on its own.

What it costs · a term

WHAT YOU BUY	NAIRA	ABROAD
Learning GPS on its own, each pupil	N1,500	£3 / \$5
Homework Tracker and Learning GPS together, each pupil	N4,000	£12 / \$18
More than 5,000 pupils, or a group of schools	Ask us for a quote	

Three ways to get it

With Homework Tracker

Tick **Yes, add Learning GPS** in the buy box. One order, one payment.

On its own

At </learning-gps>, **Learning GPS on its own**: who, your classes, your details, pay.

From your dashboard

Signed in? Tap **Get Learning GPS** in the Learning GPS part.

Not bought yet? It shows, locked

Pupils and teachers still see Learning GPS, locked. Tapping it explains how to get it: teachers can buy it from their dashboard; pupils are asked to tell their teacher.

Using it every week

1 Set it up, once

On your dashboard: your safeguarding lead under **1. Who hears at once**, and each form teacher's class link under **4. Class links for form teachers**.

2 Give pupils their links

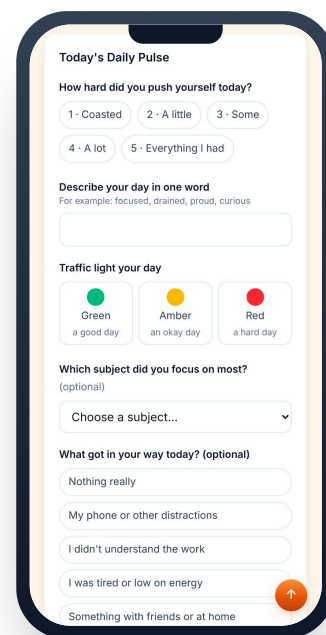

Print each class's link slips. Pupils add their page to the home screen.

3 Every school day

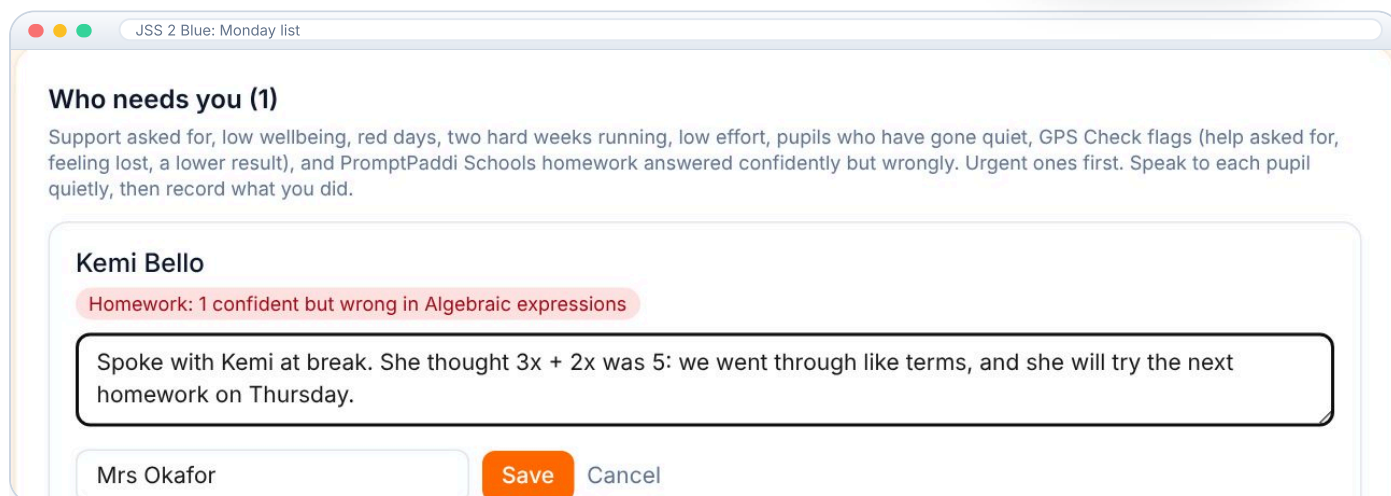

Pupils do the two-minute **Daily Pulse**. On Fridays, the **Friday Reflection**.

4 Every Monday

Each form teacher opens their Monday list, speaks quietly to each pupil it names, and taps **Record what you did**.

A pupil's Daily Pulse.

Mrs Okafor's Monday list: who needs her this week, and what she did.

Safeguarding

Only the form teacher sees what pupils write. If a pupil asks to talk to someone, or rates their week 1 (struggling), the form teacher and your safeguarding lead are emailed straight away. Learning GPS supports, and never replaces, your school's procedures.

3 Leading on AI

Train your staff, then adopt your school's AI rules. Dr Timi Hyacinth and AFRISAGE's School AI Governance Framework (SAGF).

Scan: /for-schools

1 Check where you stand, free

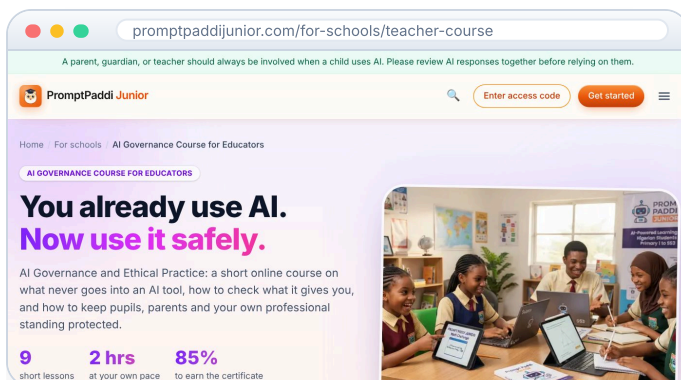

The School AI Readiness Check (SAGF) on promptpaddijunior.com/readiness/ai-governance.

2 Train your staff

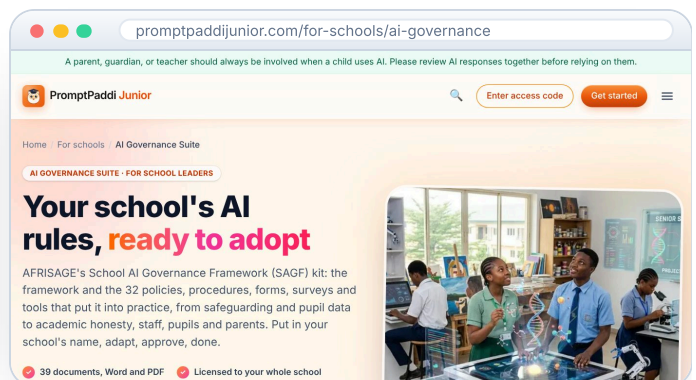

The **AI Governance Course for Educators**: 9 short lessons, about 2 hours, and a verifiable certificate at 85%. Pupil data and the Nigeria Data Protection Act 2023, safeguarding, academic honesty and transparency with parents. A sample lesson is free.

3 Adopt the rules

The **AI Governance Suite**: the SAGF kit and the course templates, 39 documents, each as an editable Word file and a print-ready PDF, licensed to your whole school. New documents at no extra cost.

The course: [/for-schools/teacher-course](https://promptpaddijunior.com/for-schools/teacher-course)

The suite: [/for-schools/ai-governance](https://promptpaddijunior.com/for-schools/ai-governance)

What it costs · paid once

WHAT YOU BUY	NAIRA	ABROAD
AI Governance Course for Educators, one teacher	₦10,000	£15 / \$19
For 20 or more teachers, each (30% off)	₦7,000	30% off
AI Governance Suite, your whole school (20% off after a course group; 50% off for 50 or more teachers)	₦150,000	£225 / \$285

4 Study Coach

Study with AI, the safe way: ready-made prompts for every subject and stage, from Primary 1 to SS 3.

What it is: the curriculum prompt library for Nigerian (NERDC), Cambridge and WAEC subjects, with study guides, practice tests and the AI Literacy Course. Your child copies a ready-made prompt into a free AI (Claude, ChatGPT or Gemini) and learns with it safely.

Written for each class and topic

Thousands of prompts, so the AI teaches at the right level.

WAEC study guides

36 weeks, September to the May sitting, and practice tests.

The AI Literacy Course

Teaches children to use AI wisely, safely and honestly.

Numbered, with a Report button

Anything wrong is put right quickly.

1

Enter your access code

It comes straight after you pay. On each device, tap **Enter access code**. One child's Study opens their stage; the family plan opens all four. A school's code asks **Which class are you in?** and opens that stage.

2

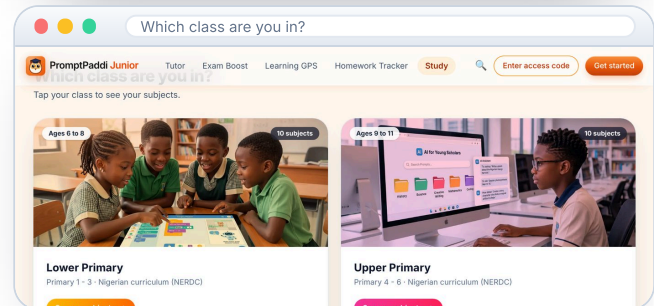

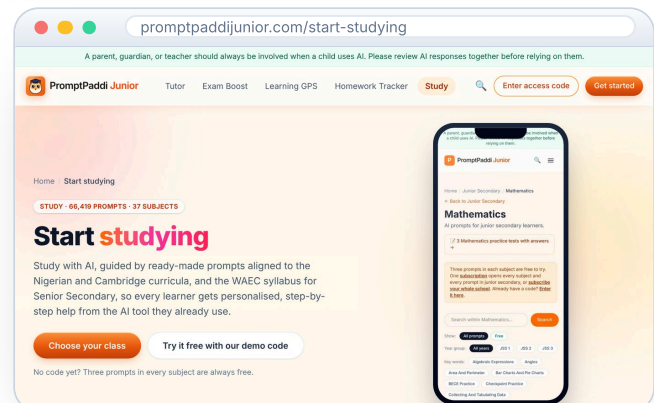

Choose your class

Tap **Study Coach** in the menu (or **Start studying** on the home page). Under **Which class are you in?**, tap your class, then a subject.

3

Copy a prompt

Tap **Copy prompt**, open your AI, paste it in and follow along.

Start studying: choose your class.

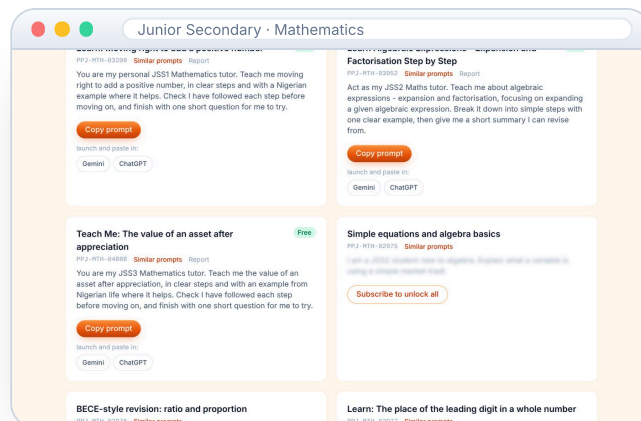

What it costs

Free when the Tutor and Exam Boost are bought together for the same child. On its own, one child:

₦35,000 for 6 months or **₦60,000** a year. Family (up to 4 children, every stage): **₦120,000** a year · £25 / £45 / £79 · \$32 / \$59 / \$99.

Inside a subject

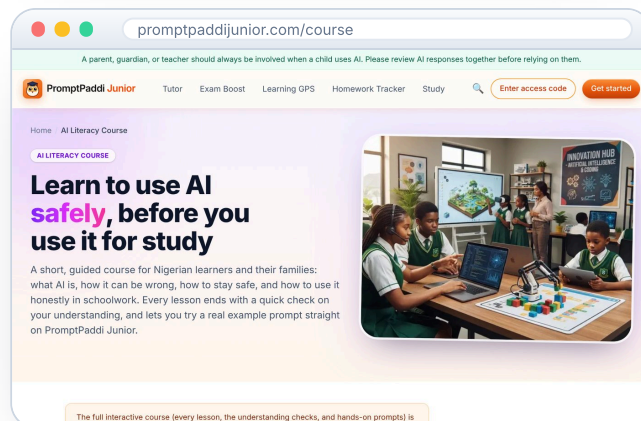

Each subject lists its prompts by topic, with search and key words. Each prompt shows its number, a **Report** button, and **Copy prompt**, with buttons to open Gemini or ChatGPT. Three prompts in every subject are free to open.

Prompts in a subject, ready to copy.

The AI Literacy Course

Before your child studies with AI, they learn what AI is, how it gets things wrong, how to stay safe, and how to use it honestly. Every lesson ends with a quick check and a real example prompt. promptpaddijunior.com/course

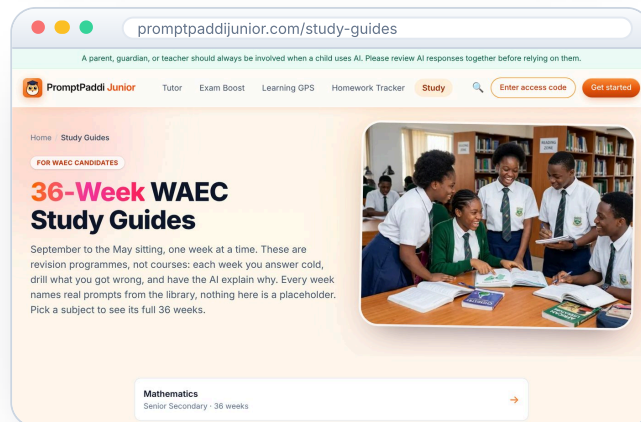

The AI Literacy Course.

36-week WAEC study guides

Revision programmes, one week at a time, from September to the May sitting: answer cold, drill what you got wrong, and have the AI explain why. promptpaddijunior.com/study-guides

Keep an adult nearby

A parent, guardian or teacher should always be nearby when a child uses AI. AI can be wrong: check important answers together.

The WAEC study guides.

5

PromptPaddi Tutor

Paddi, a friendly AI tutor on your child's own private link. It teaches each topic first, then practises it, one step at a time.

Scan: /tutor

It teaches before it tests

A short lesson, a worked example, and checked videos before every set of questions.

Finds your child's level

Five quick questions, then five steps from the basics to exam level.

Hints first, never the answer first

Children learn to think, not copy.

Stars, streaks and "Level up!"

Keep children coming back every day.

Kind about spelling

Small slips are forgiven (and the right spelling shown), except in English and language subjects.

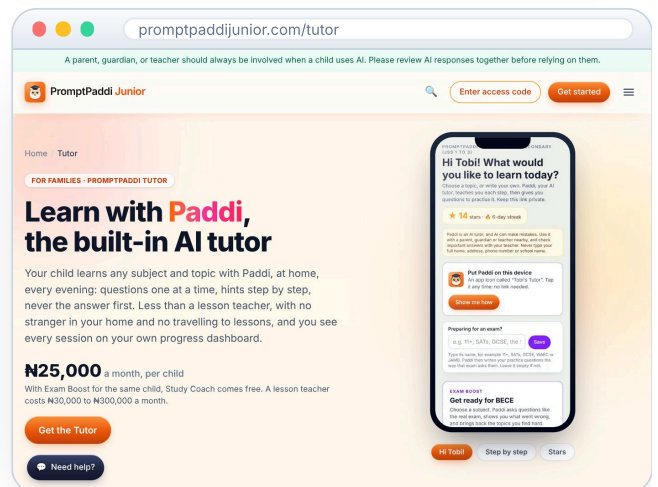

Feeds the free dashboard

Every answer, so you always know how they're doing.

What it costs

£25,000 each child, a month

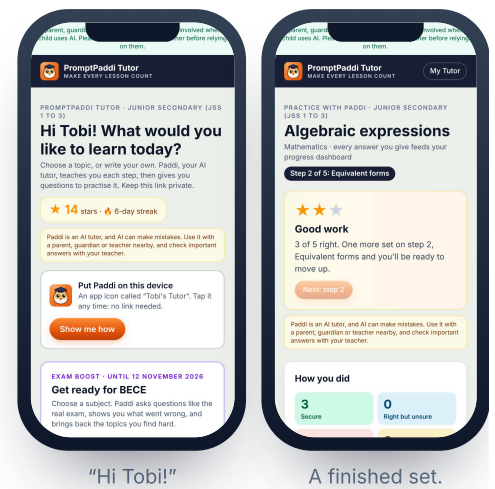

£35 / \$45. With Exam Boost for the same child, Study Coach is free. Choose 1 to 12 months: nothing renews by itself. A lesson teacher costs £30,000 to £300,000 a month; with Paddi there is no stranger in your home and no travelling to lessons.

What the Tutor does, and Get the Tutor.

How your child uses the Tutor

- 1 Open the Tutor link**
From your parent dashboard (**Open Tobī's Tutor**), or the app icon you put on the phone with **Show me how** .
- 2 Choose a subject and a topic**
Or type your own topic.
- 3 Choose how to start**
Find my level, start from the beginning, or choose my step.
- 4 Read Paddi's short lesson**
Try the "Your turn" question. Watch a video if there is one.
- 5 Answer, and say how sure**
Then tap **Check answer** . Stuck? Ask Paddi for a hint.
- 6 Collect your stars**
Tap **Next** to climb a step.

For grown-ups

Sit nearby while your child uses AI. On your dashboard you can choose how your child starts a new topic, and see every answer.

6

Exam Boost

Getting ready for a big exam: Common Entrance, BECE, WAEC, NECO, JAMB, Cambridge IGCSE, or any exam you name (the 11+, SATs, GCSE...), timed like the real one. Choose only the subjects that worry you.

Scan: /exam-boost

What it is: timed drills like the real paper, on your child's Tutor page, with or without the Tutor.

Timed, like the real paper

Ten questions in the exam's style, against the clock, with the time the exam gives.

Real exam habits

Work each question in the exercise book, answer them all, hand the paper in. No hints until it's marked.

Every mistake put right

After marking, Paddi shows what went wrong, the working step by step, and a question like it.

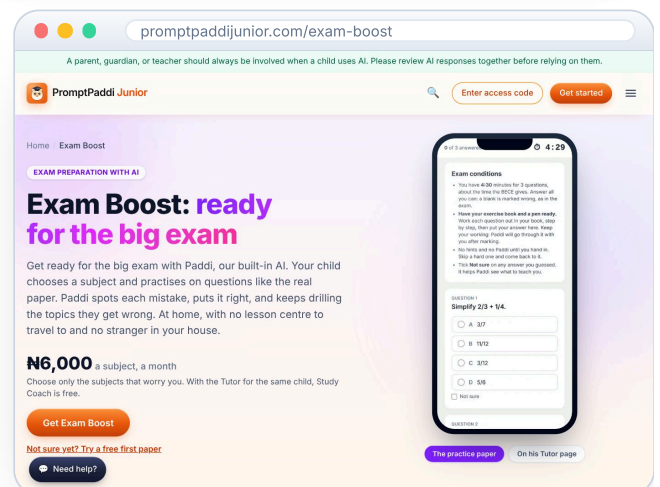

Practice where it's needed

Paddi brings back the topics your child gets wrong; you see their readiness, topic by topic.

What it costs

N6,000 a subject, a month

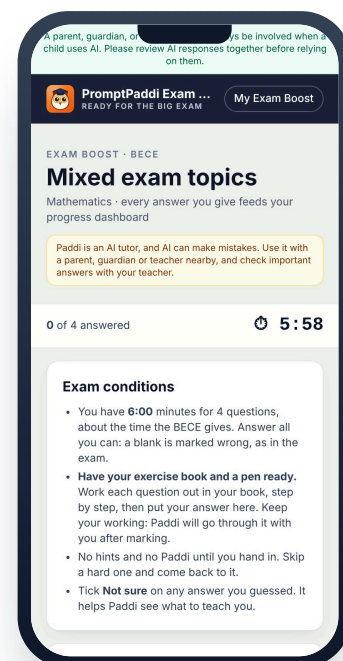

£10 / \$15 a subject, a month. Choose the subjects that worry you, up to 9, for 1 to 12 months: nothing renews by itself. With the Tutor for the same child, Study Coach is free. Try a free practice paper first at [/free-paper](#).

The exams, the prices and Get Exam Boost.

How your child does a drill

- 1 Find the Exam Boost box**
On your Tutor page: "Get ready for BECE".
- 2 Choose a subject**
And a topic if you like (or leave it to Paddi for mixed exam topics). Tap **Start a drill**.
- 3 Get your exercise book and a pen**
The clock starts when the paper opens.
- 4 Work each question in your book**
Tick your answer, or type it. Tick **Not sure** on any you guessed.
- 5 Hand it in**
Tap **Hand in my paper** (or it hands itself in when time runs out).
- 6 Put your mistakes right**
Read "Paddi puts your mistakes right", check the working against your book, then try the question like it.

The drill: exam conditions and the clock.

A blank is marked wrong

Just like in the exam: answer every question you can before the clock reaches zero.

7 Maths, English and Science

Find the gap, fix it skill by skill. Each starts free, switches on its part of Paddi Dash, and is bought a term at a time (120 days).

Maths Clinic • the engine check

When a child is lost in algebra, the trouble often starts much further back, in fractions or negative numbers. A free gap check finds where it goes wrong; then every gap is fixed skill by skill, each mistake explained, with stars, streaks and sprints. Primary 1 to SS 3 and JAMB.

English Lab • the radio

Slow reading, weak spelling, the same grammar slips in every essay: English Lab finds where your child's English breaks down (sounds, spelling, grammar or reading) and fixes it skill by skill. Every question can be read aloud. Primary 1 to SS 3, with JAMB Use of English.

1 Take the free gap check

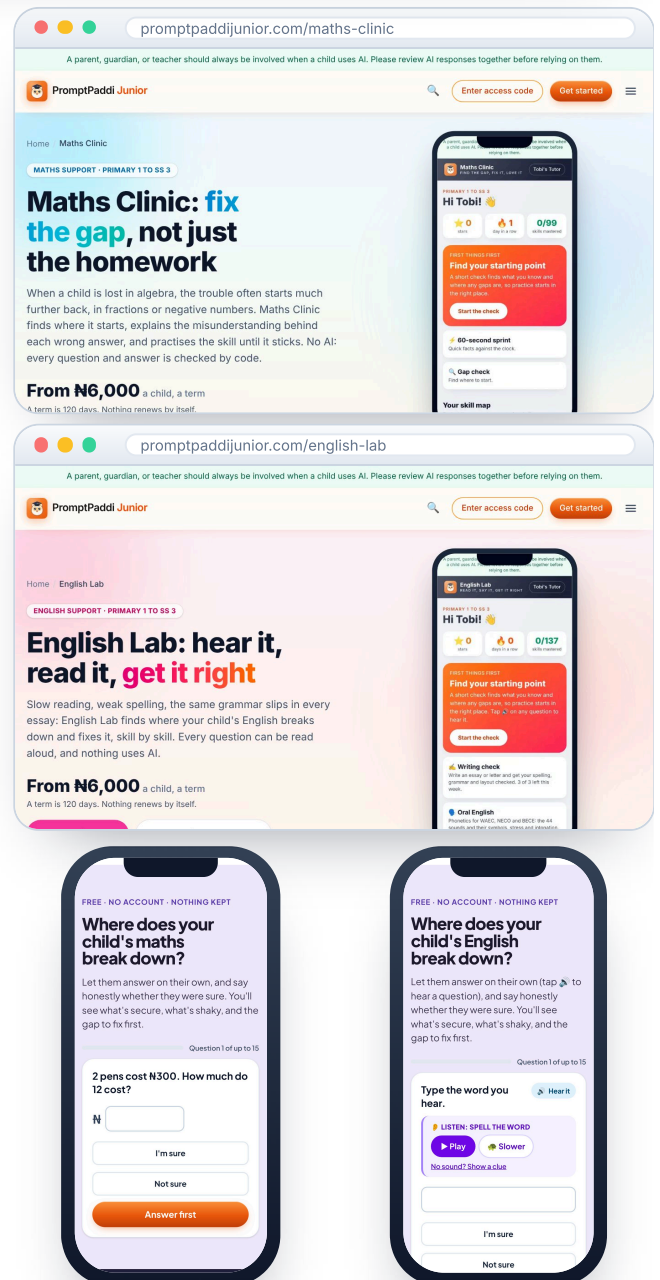

On </maths-clinic> or </english-lab>, or from your child's dash. Your child answers and says whether they were sure.

2 See where it breaks down

What is secure, what is shaky, and the gap to fix first.

3 Switch it on

Tap [Get Maths Clinic](#) or [Get English Lab](#), and choose your child's stage.

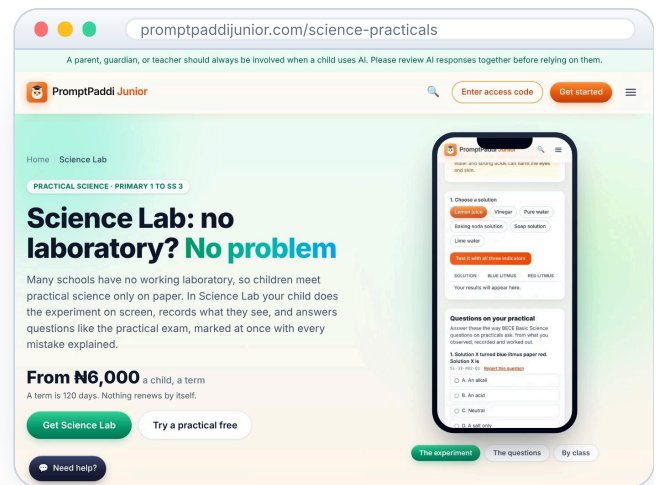

The free gap checks.

Science Lab • the landing lights

Many schools have no working laboratory. In Science Lab your child does over 100 practicals on screen, records what they see, and answers questions like the practical exam, marked at once with every mistake explained. Primary science to SS 3, with BECE and WAEC practical skills. One practical is free: [acids and bases](#).

For schools

Maths Clinic, English Lab and Science Lab are 20% off per pupil for a school. [Science Lab for Schools](#) adds results by topic, a practical logbook and certificates.

What they cost • each child, a term (120 days)

STAGE	MATHS CLINIC	ENGLISH LAB	SCIENCE LAB	ABROAD, EACH
Primary 1 to 6	N6,000	N6,000	N6,000	£10 / \$12
JSS 1 to 3 (Maths and English include Primary)	N8,000	N8,000	N8,000	£12 / \$15
SS 1 to 3 and JAMB (Maths and English include JSS and Primary)	N12,000	N12,000	N12,000	£15 / \$18

Nothing renews by itself. The labs use no AI: every question and answer is checked by code.

8

My Learning GPS at home

Dr Timi Hyacinth's Learning GPS, for your home: know how your child is really getting on.

Scan: /learning-gps

What it is: a child aged 10 or over has their own private link: a two-minute **Daily Pulse**, a **Friday Reflection** and a **GPS Check** for each topic or test. With a younger child, you have the five-minute **Weekly Learning Chat** together.

Know how they're really doing

Confidence, effort, and what they're stuck on.

Anything that needs you, first

So you can help early.

A skill for life

Children learn to notice how they learn.

1

Buy it

In the checkout, or [Get My Learning GPS](#) on your dashboard.

2

Add each child

With their age group, then tap [Add child](#).

3

Give an older child their link

Or QR code. They do the Daily Pulse after school.

4

Read their week

Each week, on your dashboard. Have the Weekly Learning Chat with a younger child.

Your dashboard · My Learning GPS

My Learning GPS

Help your child notice how they learn, every week. A child aged 10 or over gets their own private link: a two-minute Daily Pulse, a Friday Reflection and a GPS Check for each topic or test, and you see their week here. With a younger child, you have the Weekly Learning Chat together, about five minutes once a week. [How it works](#) · [User guide \(PDF\)](#)

On until **10 February 2027**, for 4 children. 0 of 4 added.

☒ Email me on Fridays with my family's week (whose chat is waiting, and how the week went). Urgent messages are always sent.

Add a child

First name

Age

Under 10: the Weekly Learning Chat, together with you

10 or over: their own My Learning GPS link

Add child

Add another year

A full year from your end date: it would run until **10 February 2028**, so paying early loses nothing. **£10,000** a year for up to 4 children, and **£2,500** a year for each child after that.

Add another year

Your child's answers are seen by you and nobody else. If something they write worries you about their safety, speak to their school or a health professional. My Learning GPS © Dr Timi Hyacinth /

My Learning GPS on your dashboard.

What it costs

£1,500 a child, a term · £3 / \$5. It is "ground control" on your child's Paddi Dash.

9

Paddi Radar

Photograph your child's school report, or a page of classwork or homework. Paddi shows you in plain words where they're strong, where they need help, and every mistake explained.

Scan: /radar

What it is: the radar on your child's Paddi Dash. Your first scan is free, with no sign-up: open [/radar](#) on your phone and scan. The photo is never kept, and your child is shown only by their initials.

The report, in plain words

Every subject banded: strong, steady, needs support or priority, with one next step for the week.

Every mistake explained

For classwork or homework: what went wrong in each question, the right way, and the skill to practise.

Progress over time

Add each scan to the dash and see every subject move from report to report, and the skills that keep coming up.

Yours to keep, or not

Add a scan to the dash, or don't: email it or download a PDF either way.

1 Open Paddi Radar

On [/radar](#), or tap the radar on your child's dash.

2 Choose what you're scanning

School report, or Classwork or homework.

3 Take a photo

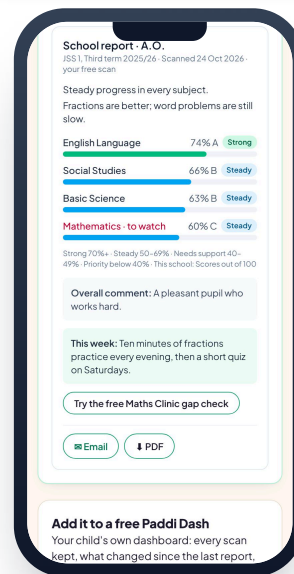

Tap **Take a photo**, or **Choose from phone**. Up to three pages, flat and in good light.

4 Scan it

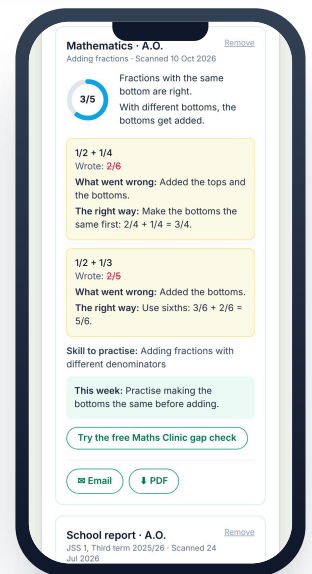

Tap **Scan it**. In about 20 seconds, Paddi shows what it reads.

5 Add it to the dash, or not

Tap **✓ Add to [name]'s dash** to keep it for progress over time, or **Don't save**. **Email** and **↓ PDF** work either way; a scan not added is deleted after a day.

A report, read.

Homework: every mistake.

Progress over time

Scan each report as it comes home, and a page of classwork or homework every week or two. From the second scan, your child's page on your dashboard shows a line for each subject, from the first report to the latest, and for classwork and homework, the share right in each subject. [↓ PDF](#) downloads it all, to keep or take to the school.

Advanced Paddi Radar: help with homework

Everything in Paddi Radar, plus **20 homework helps** a term for your child. On their own link, they photograph the question they're stuck on: Paddi finds the gap and gives a hint, **never the answer**, and they can ask up to 3 follow-up questions. You see each help on your dashboard.

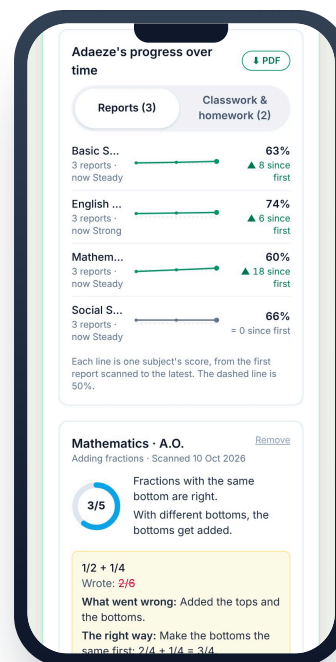

What it costs

£3,000 a child, a term

12 scans over four months (£8 / \$10). Your first scan is free.
Pay with just an email: your Paddi Dash is made when you pay.

£10,000 Advanced, a child, a term

12 scans and 20 homework helps (£20 / \$30). Not included with the Tutor. Nothing renews by itself.

Progress over time: each subject, report by report.

For schools

Paddi Radar for schools reads an applicant's past reports for admissions, and builds a profile on a pupil who needs help: 100 scans a term for the whole school. See </for-schools/radar> and the Schools Guide.

FROM ANYWHERE IN THE WORLD

10 Give it as a gift

A grandparent, aunt, uncle or godparent, in Nigeria or abroad, pays for a child's learning. We send everything to the child's family.

Scan: /gift

A gift that helps every day

Not just on a birthday.

Naira, pounds or dollars

The family pays nothing.

Switched on at once

The family gets their links straight away; you get the receipt.

Your own message

And give to several children at once.

1

Open the gift page

Go to promptpaddijunior.com/gift (or **Give as a gift** at the bottom of any page).

2

Name the children

And their school stage.

3

Choose what to give

The Tutor, Exam Boost, Learning GPS or Study Coach, for each child, and for how long.

4

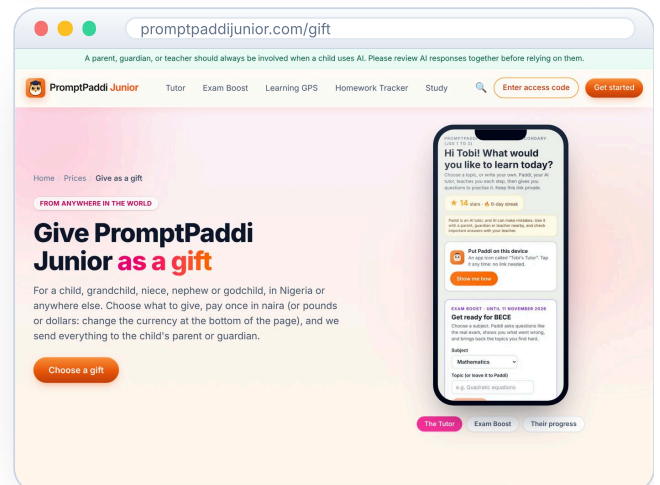

Their family, and your message

Their parent or guardian's name and email, and your message.

5

Pay

It switches on, and we email the family.

The gift page. Prices are the same as buying for your own child.

Living abroad yourself?

Paddi Tutor teaches your child the Nigerian curriculum and the topics from their school in the UK or the US (£35 / \$45 a month). Exam Boost gets them ready for WAEC, NECO or JAMB if you return home, and Study Coach has Yoruba, Igbo and Hausa. [/abroad](#)

FREE WITH EVERYTHING

11 Your parent account

Sign in at Parent login. Everything for your family is on one page: each child's Paddi Dash and progress dashboard, your subscriptions, and your own AI course.

Scan: /parent/login

1 My children

Each child's products, [Open dashboard](#), [Open Tutor](#), and messages from school. Link a school record with **Link {name}'s school or Tutor**.

2 Each child's progress dashboard

A summary in plain words, areas for attention, subjects, the Tutor record, reports and the term plan.

3 Your subscriptions

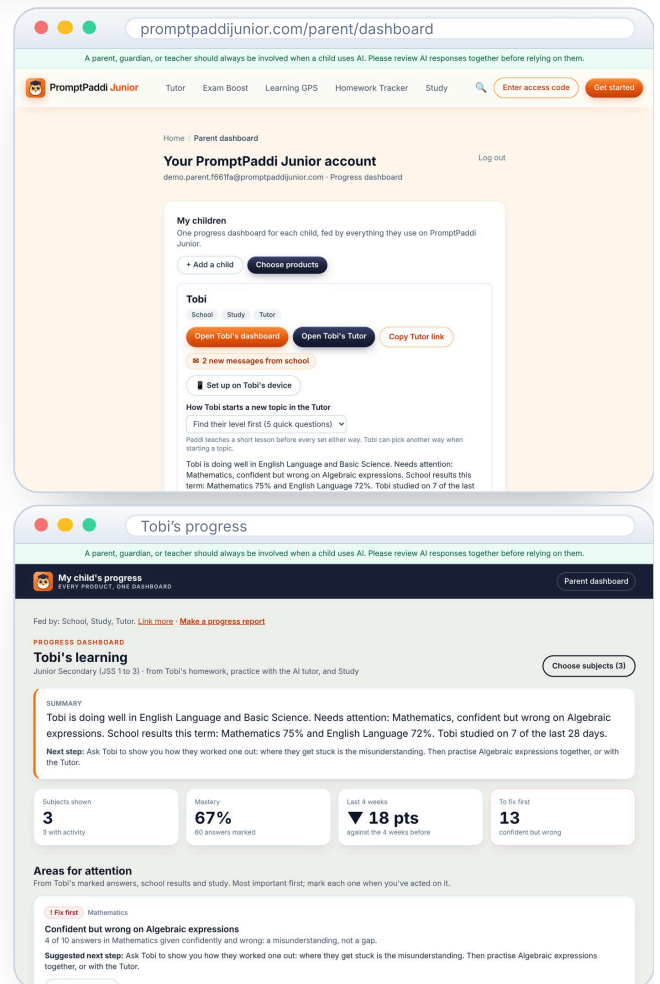

What you have, when it ends, and [Renew](#). We also email you two weeks before anything ends.

4 Choose products

The one checkout, for any of your children.

5 The Parent AI Course

"Using AI safely and well with your child": the Family AI Guide for Primary (ages 5 to 11, 6 lessons) and for Secondary (ages 11 to 18, 7 lessons). The first lesson of each is free with Paddi Dash; the whole course comes with Study Coach.

"Needs attention: Mathematics, confident but wrong on Algebraic expressions." Fix those first.

Every price

Paid once, for the time you choose. Nothing renews by itself. Paddi Dash is free. Prices in naira, and in pounds and dollars for families and schools abroad.

Prices at the time of writing (October 2026). The current prices are always on promptpaddijunior.com/pricing.

GOOD TO KNOW

? Paying, renewing, safety and help

Simple payments, no surprises, and help on every page.

Contact us: /contact

Paying

- **In naira:** card, bank app or USSD with Paystack, or a bank transfer to our account. We switch it on when the money arrives.
- **In pounds or dollars:** by card, with Stripe (taken by PromptPaddi Limited, Dr Timi Hyacinth's UK company).
- **No account needed first:** we make it when you pay, and email you a link to set your password.

Renewing

- We email you two weeks before anything ends, with a **Renew** link. It opens without signing in.
- Renewing early loses nothing: the new time is added from your current end date.

Staying safe with AI

- A parent, guardian or teacher should always be nearby when a child uses AI. AI can be wrong: check important answers together.
- Children's private links are just for them: don't share them. Add them to the home screen to open like an app.
- No AI marks pupils' work in Homework Tracker unless your school adds Paddi, and no AI is used on pupils in Learning GPS.

Data and the law

We follow the Nigeria Data Protection Act 2023, UNESCO's AI in Education guidance and the UK DfE's AI guidance. AFRISAGE LTD/GTE is the data controller for schools in Nigeria.

Earn with PromptPaddi Junior

PaddiPartners and Ambassadors share their own link: families who buy through it pay less, and the partner earns a commission. See promptpaddijunior.com/partners.

Need help?

Tap **Need help?** at the bottom of any page to open the help chat. On a phone, tap ← **Back to page** (or your phone's Back button) to go back to where you were. Email hello@promptpaddijunior.com, WhatsApp [+234 705 567 1509](https://wa.me/2347055671509), or use **Report a problem** at the bottom of any page. Every prompt has a number and a Report button.
